Eve Taylor – Professional Aromatherapy Skincare

Eve Taylor is the founder of the Institute of Clinical Aromatherapy and is regarded as the pioneer of modern aromatherapy by professional skin care therapists worldwide.

In 1968 Eve Taylor launched the first professional aromatherapy skin care line to contain only pure natural essential oils without cheap synthetic filters.

All of Eve Taylor's oils are non-comedogenic, and do not contain any mineral oils, SD alcohols, or artificial additives, nor are they animal tested.

Skincare available in Soothing, Balancing and Purifying.
